Chuck's Fish and FIVE Tuscaloosa Add to Their Menu!

Chuck's Fish in Tuscaloosa and Birmingham, as well as FIVE Tuscaloosa, have a new addition to their menu at each location: Automatic External Defibrators. Chuck's and FIVE recently partnered with Cardiac Solutions, a Birmingham-based company that provides AEDs to businesses, local governments, schools, and individuals across North America, to place an AED in each restaurant.

“Our goal at Chuck's Fish and FIVE Tuscaloosa is to give our customers an amazing dining experience. This not only includes providing our guests with the freshest local seafood and first-class customer service and but also ensuring we are prepared to assist our guests in the event of Sudden Cardiac Arrest.” said Britney Campbell, General Manager.

Jon Seale, CEO of Cardiac Solutions, noted, “Each year, over 350,000 people across the United States experience Sudden Cardiac Arrest. When this happens, the person's chance of survival decreases ten-percent every minute an AED is not used. Chuck's Fish and FIVE Tuscaloosa are committed to ensuring this delay is minimized and live-saving medical aid is available prior to the arrival of first responders.”
